# PAR Rug

## Product type

Rug

## Materials

Fibres from Jipi  
palm leaves fibres

## Colours

cacao melange/brown melange  
light grey melange/brown melange  
greenrose/terracotta yellow melange  
natural rose/terracotta yellow melange  
greenrose/light grey melange

## Country of origin

Colombia

## Place of use

Commercial and  
Residential

## Environment

Indoor

## Customise product

Please contact

for bespoke version

## Design and inspiration

Earthy colours and subtle colour-blocking characterise the Par Rug by Sebastian Herkner. The shades of the pattern mirror the earthy, warm tones the designer saw when he visited the Huila region in Colombia. The rug is knotted with fibres that come from the leaves of the fique plant, a wild-growing agave-like tree. The rug is available in five different colour combinations and in three sizes.

## About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

## Technical Specifications

Rug Small

W: 1600 mm

Rug Medium

W: 2000 mm

Rug Large

W: 3100 mm

### Dimensions (mm)

Small

Width: 1600, Depth: 2200

Medium

Width: 2000, Depth: 3000

Large

Width: 3100, Depth: 4200

### Packaging dimensions

(H x W x D) (mm)

Small

650 x 650 x 500

Medium

860 x 850 x 500

Large

1200 x 800 x 700

### Item weight (kg)

Small

13

Medium

22

Large

48

### Craft and manufacturing

Each rug is knotted in small ateliers in the Santander region. The yarns are made up of 28 individual fibres, which are prepared in an elaborate process that takes seven days, which includes washing the leaves and soaking them for 15 hours before they are dried and brushed by hand. These hard-wearing, long fibres have even flame retardant qualities. Then it takes one experienced artesano 20 days to make the actual rug, setting knot next to knot on a vertical loom.

### Care instructions

Some shedding will occur when vacuuming the rug, especially in the beginning. We recommend cutting loose threads with a scissor or pull them in with a crochet needle. Vacuum rug regularly. As the fibres have been dyed by hand, each model's colour varies slightly. To protect the colours, avoid exposing the product to direct sunlight over long periods and change its position regularly so the colours age evenly. We also recommend using an anti-slip underlay to reduce dust collection. Please protect these rugs from rain and wet conditions. Their surfaces can be wiped with a damp cloth. They are heat and fire-resistant. Only use a professional rug cleaning service for the entire rug. The dimensions can vary minimally as each rug is made by hand.
