Design and inspiration

The Caribe Chic Lounge Chair is an elegant design by Sebastian Herkner and can be used inside and outdoors. It's part of our Caribe Chic collection, featuring an intricate hand-woven webbing in contrasting earthy, muted shades. The pieces and colours are inspired by the incredible nature of the Colombian Huila region where the serene Tatacoa desert meets the powerful Rio Magdalena.

About the designer

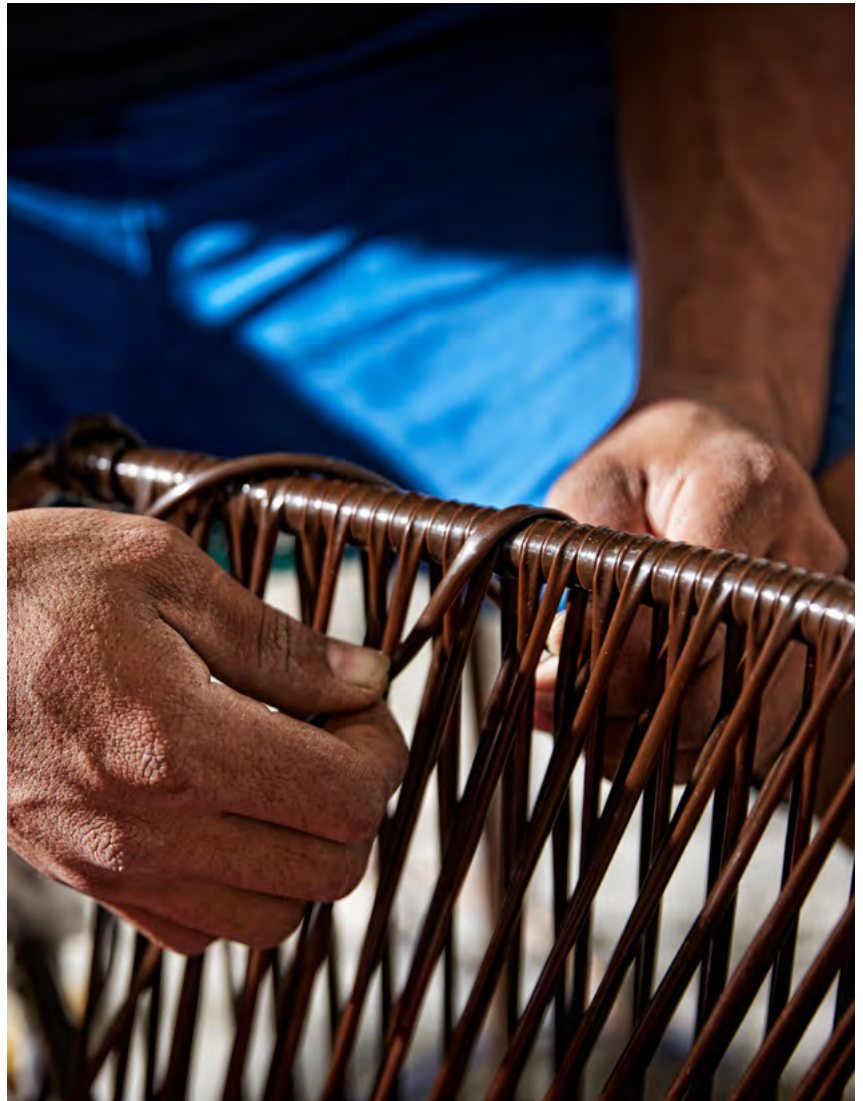

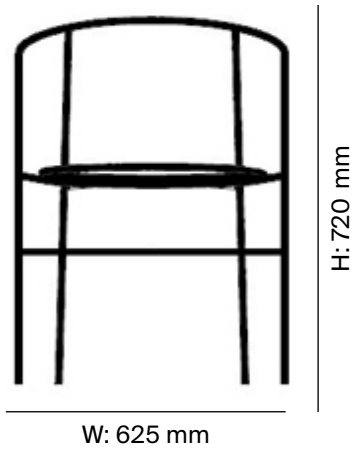

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Technical Specifications

Dimensions (mm)

Height: 720
Width: 625
Depth: 657
Seat height: 410
Seat depth: 500

Packaging dimensions

(H x W x D) (mm)
800 x 800 x 700

Item weight (kg)

7

Craft and manufacturing

Each chair is made in Santa Marta, a city on the Caribbean coast of Colombia, by local craftspeople. They weave the PVC strings, which are made from recycled plastic, around a powder coated tubular steel frame. The weaving technique the artesanos and artesanas use is called Momposino, a traditional method known for intricate patterns. Just the preparation of all the materials takes ten days, while the production of each chair takes three to four days.

Care instructions

Wipe clean with a damp cloth (do not use scratchy materials like a steel scourer) and gentle soap. You can also hose them down with water. To protect the colours, avoid exposing the product to direct sunlight over long periods and store indoors during winter. Fitted cover sold separately. If the product is exposed to sea air, wipe the frame regularly with a damp cloth.
