Design and inspiration

The Nido cushions combine joyful colours with intriguing hand-stitched motifs. Their cotton covers are decorated with a fluffy macramé detail, making the accessory an eyecatcher on any sofa or lounge chair. Sebastian Herkner designed the Nido collection after visiting Bogota's Museo del Oro, the gold museum, where he discovered Colombia's ancient jewellery. The colour combinations are inspired by the hummingbirds Sebastian saw in the Reserva Entreguas. The Nido cushion collection includes five motifs, available in various vibrant colour shades.

About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

Each cushion is made by hand in small workshops in Columbia's Reserva Enteragua region. The people who live in this area of the Andes have kept the old stitching techniques alive. Just the cotton and wool preparation takes up to three days, while one artisana – as the craftswomen are known in Colombia – needs three to four days to complete one cushion.

Care instructions

It can be machine washed on a cold delicate cycle with similar colour, but we recommend dry cleaning if possible. The dimensions can vary minimally as each cushion is made by hand. Do not alter it yourself, as this could damage the fabric irreversibly.
