Design and inspiration

A feast for the eyes serves ames with the new Cartagenas dining table, which joins the collection now. Designed by Sebastian Herkner, the table's intricate webbing in strong colours matches the existing dining chairs of the series. Its obround tabletop is made from sleek metal or marble, balancing out the vivid colours of the base. This collection is an ode to Cartagena, the lively coastal metropolis on Colombia's Caribbean coast. It has long been an energetic melting-pot, where Colombia's diverse ethnic communities live side-by-side, creating a city landscape where various cultural backgrounds merge with each other. When walking through its streets and alleyways, new colours, patterns, and perspectives await behind every corner – just like these pieces reveal a new side from every angle.

About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

Like the rest of the Cartagenas collection – which includes dining chairs, lounge chairs, and a cocoon chair – the tables' webbing is hand-woven in ames ateliers in Bogota, Colombia's capital. The skilled craftspeople work with coloured strings made from recycled PVC and tie them artfully around a steel frame. It takes them up to 30 days to complete one table base.

Care instructions

Wipe clean with a damp cloth (do not use scratchy materials like a steel scourer) and gentle soap. You can also hose them down with water. To protect the colours, avoid exposing the product to direct sunlight over long periods and store indoors during winter. Fitted cover sold separately. If the product is exposed to sea air, wipe the frame regularly with a damp cloth.
