for bespoke version

## Design and inspiration

The Cesta mirrors compel with their contrast of simple, round shapes and a colourful frame. Designed by Pauline Deltour, who was inspired for this collection after visiting traditional workshops in Colombia, the oval or round metal frame features a tall rim that's decorated with coloured PVC-Strings made from recycled plastic. Each mirror adds a joyful pop of colour to any wall.

## About the designer

"Born in France, Pauline Deltour's aesthetic is defined by being strikingly simple and beautifully detailed at once. Her designs showcase a curiosity in the qualities of the raw materials and transferring production techniques between disciplines.

Pauline Deltour joined ames founder Ana Maria Calderón Kayser on a trip to Colombia to study the local materials first hand and learn from the artisans about the traditional weaving techniques. Back in her Paris studio, where she develops furniture and product designs for international brands, Deltour designed a range of furniture and living accessories for ames."

## Technical Specifications

### Dimensions (mm)

Mirror Round

Ø: 491

Depth: 100

Mirror Oval

Height: 543

Width: 475

Depth: 70

### Packaging dimensions

(H x W x D) (mm)

Mirror Round

538 x 538 x 260

Mirror Oval

650 x 650 x 150

### Item weight (kg)

Mirror Round

4

Mirror Oval

4

### Craft and manufacturing

The coloured strings, made from recycled PVC, are woven by hand around the powder coated metal frame. The Colombian craftspeople, based in Bogotá, use traditional weaving techniques that are handed down from one generation to the next generation. The production of each mirror takes three days.

### Care instructions

You can clean the PVC strings and metal frame with a damp cloth and extra water. Be careful to avoid the wooden structure underneath the mirror glass. The glass can be wiped down with standard glass cleaners.
