Design and inspiration

The Cielo Bar Stool is a light and versatile design by Sebastian Herkner. It's ready for indoor and outdoor use and will spruce up bar counters at home or in hospitality spaces. Available in various colour combinations, the stackable chair can also add personality to dining areas of restaurants or hotels. Like the daybed and lounge chairs of the collection, the colours and look are inspired by Sebastian's visits to Colombia. There, he not only immersed himself in the culture and beauty of the country but also met the local Ames artisans and learned about their traditional weaving techniques.

About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

Each barstool is made in Santa Marta, a city on the Caribbean coast of Colombia, by local craftspeople. They weave the PVC strings, which are made from recycled plastic, around a powder-coated tubular steel frame. The weaving technique the artesanos and artesanas use is called Momposino, a traditional method known for intricate patterns. Just the preparation of all the materials takes ten days, while the production of each barstool takes two days.

Care instructions

Wipe clean with a damp cloth (do not use scratchy materials like a steel scourer) and gentle soap. You can also hose them down with water. To protect the colours, avoid exposing the product to direct sunlight over long periods and store indoors during winter. Fitted cover sold separately. If the product is exposed to sea air, wipe the frame regularly with a damp cloth.
