Design and inspiration

With their strong colour-blocking, the Maraca Cushions are an ode to the rich cultural heritage of the Bolívar region in Northern Colombia. In this area, the old manufacturing techniques and methods are still cherished and taught. Among these is the art of building the famous maracas rattles, which the gaiteros use to play ancient rhythms.

About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

The cushion covers are made of 100% hand-woven cotton. The preparation of all the materials takes three days, while the production of each cushion takes two days.

Care instructions

It can be machine washed on a cold delicate cycle with similar colour, but we recommend dry cleaning if possible. The dimensions can vary minimally as each cushion is made by hand. Do not alter it yourself, as this could damage the fabric irreversibly.
